

Resume

John Macey

Construction Consultant

Specializing in heavy civil projects

Dedicated professional with over 37 years of heavy civil construction experience throughout the United States. Distinguished 18-year career with Kiewit Construction. Nominated for the Peter Kiewit Sons "Award for Excellence". Multifaceted background in heavy civil construction projects with expertise in the following disciplines:

- Project Scheduling
- Claim/Change Order Development
- Training
- Estimate Manager
- Project Management
- Constructability Analysis

Highly qualified, detailed oriented construction consultant with proven ability to provide timely and accurate answers. A strong communicator who gets results.

Career Experience and Achievements

G.C. Solutions, Inc. - 1997 to Present

- Joined GCS as a partner in 1997 after an accomplished 18-year career with Kiewit Construction.
- Construction manager for Boston Sand and Gravels' 5 million dollar facility upgrade. Managed work from design through construction.
- Assigned a lead role for Fluor Corporation in the estimate preparation and review for the 1.5 billion dollar SAS Oakland Bay Bridge. Developed innovative low cost means and methods that were critical to our client's (American Bridge/Fluor) successful bid.
- Estimate manager for major segment of new PATH Terminal at the World Trade Center. Prepared validation estimates for 500 million dollars of highly complex, state of the art construction. Also, provided "constructability" input to DMJM Harris to substantially lower projected cost.

Kiewit Construction - 1979 to 1996

- **General Superintendent** - Profitably managed field operations under two owner directed accelerations. Managed over 300 craft personnel on complex "fast track" concrete work to meet the owner directed milestones.
- **Project Manager** - Managed the Conemaugh Hydroelectric Plant and recorded record profits for the Northeast District of Kiewit Construction.
- **Estimate Manager** - Successfully bid over one billion dollars of work for the Atlanta and Northeast Districts of Kiewit Construction. Prepared detailed estimates on all facets of work including heavy highway, rapid transit, large bridge structures and water treatment facilities. Developed pre-bid value engineering ideas that led to successful low bids.
- **Other Projects** - Genesee Expressway, MBTA Park Street Station, Nine Mile Point II Nuclear Power Facility, MWRA Fore River Sludge to Fertilizer Facility, Granby Hydro, Mill-C Dam and Powerhouse, Harrisville/Dodgeville Hydro, Smith Street Bridge.

Education

- B.S. Civil Engineering Technology - Rochester Institute of Technology

Memberships/Organizations

- Member, American Society of Civil Engineers
